NEWS SUMMARY.

Gold closed in New York yesterday at 36%. The Liverpool market is dull and declining; sales 6000 bales. The quotations received by telegraph are doubtful.

At St. Paul, Minnesota, the mercury was 22 grees below zero on Thursday morning, 10th inst. HAMMILL, the oarsman, is to row two miles at Pittsburg with WALTER BROWN, of Portland, for \$1500 a side.

At the last accounts the effects of twenty petroloum oil companies of Venango County, Pennsylvania, were sold at auction by the sheriff. Ex-General Bradley T. Jourson has been admitted to the bar of the Supreme Court of the United States, under the new rule rescinding the test onth.

A letter from some foreign official states that the Empress Carlotta is at Miramar, "among her flowers, sparkling in all the brilliancy of full health." The newly born child of the Infanta Maria

drid. The babe got twenty-seven names-the first being Alphonso, and the last Topos Los Santos (all the Saints). Messages are transmitted by telegraph between London and India in twenty-one hours. Many perplexing uncertainties and blunders are occa-

sioned by the translators. The messages have to pass through seven different countries. Fifteen young ladies and gentlemen were poisoned on Christmas night, at Stephenson, Ky., by eating cake, in which too much cochineal was used. All suffered excruciatingly, and several are still

in a very critical condition. It is estimated that to furnish timber sufficient to construct a single seventy-four gunship requires the matured crop of forty-four acres of wood land, or 2200 full-grown trees.

The liquor dealers of Loconia, N.: H., have

agreed to abandon the traffic, and sell for nothing but medicinal and mechanical purposes, and the hotels only to actual travelling guests, keeping no open bars. New York street corners are now adorned by glass pavilions, the panes of which are moveable. and bear the cards of advertisers. One pane costs

\$70 per year. The idea is borrowed from Paris, where \$300,000 in gold per year is realized by a similar enterprise. The Stratford House, in Westmoreland county, Va., with 2500 acres of land, the colonial homesteads of the Lex family and the birth-place of General ROBERT E. LEE, has been recently pur-

chased by the Southern Orphan Association. The population of New York State by the new census is 3,827,818, an increase of 361,662 from 1835, which is almost wholly in the commercial and manufacturing districts, the agricultural counties remaining nearly stationary, and seven of them showing an actual diminution.

A general advance has taken place in the wages of agricultural laborers in the Newmarket district, in England. In the parish of Wodditton, on the estate of the Duke of RUTLAND, some cettages, fitted with every domestic convenience, have been

Gambling continues to increase in Paris, and recently heavy losses and gains are the subject of much conversation. Among the witnesses is KALIL BEY, who, on Saturday evening, gained a million of francs. A Viscount lost the same evening one hundred and fifty thousand francs, which he paid immediately.

The Richmond Times says parties from down the river report that at City Point the ice is solid from shore to shore. Near Jamestown there were heavy fields of floating ice, and that there are several coal-loaded schooners and several oyster boats bound to that port, waiting for navigation to be resumed.

Napoleon, since his accession to the French throne, has added \$1,350,000.000 to the debt of France, which now amounts to \$2,415,000,000, a sum almost as great as the total debt of the United States. Napoleon's wars have cost him about \$500,000,000, and since 1851 the annual deficit of the French revenues has averaged \$50,000,000.

The youth of London light their segars with a new invertion, called poudre de fue. It consists of pyrophorus, which is preserved in a small tin case. with a narrow orifice. When a small quantity of this dark powder is poured out on the end of the segar, and breathed on gently, it becomes incandescent, and lights the pipe or segars.

The fastest time on record: 1 mile pacing, Pocahontas, 2.17]; 1 mile, trotting, Dexter, 2.18]; 2 miles, trotting, Flora Temple, 4.504; 3 miles, trotting, Dulchman, 7.324; 10 miles, trotting, Prince, 30.001; 20 miles, trotting, Capt. McGowan, 59.351; 100 miles, trotting; Conqueror; 8.53.53; 100 miles. double, Master Burke and Robin, 10.17.22; 1 mile, running, Glaciator, 1.384; 4 miles, running, Lex-

ington, 7.193. In a snow drift at Pittsfield, the other day, bag of netting was found filled with moss and hair. A local paper adds : "The bundle has been identified, and proves to be a lady's waterfall. How it became detached from the wearer is unknown, but the conjecture is that the owner was caught in the storm, and was obliged to throw overboard her ballast in order to make headway." The San Francisco Times says: "Quite a crowd

of people were collected in front of the Bank of California yesterday, watching the struggle of a powerful team of horses in their attempts to move a wagon load of silver bricks. The load was so heavy that the wheels sunk into the cobble stones nearly to the hubs. After a long struggle, and the assistance of several of the bystanders, the team started the load, which consisted of about one hundred large silver bricks from the State of Navada." Everywhere at the North the storm has been

severe, and the trains delayed. In New England several were completely snowed up, and at Boston the snow drifts were in some places piled up ten feet deep. In New York the cars on some of the street railroads were entirely suspended, and in one instance, on the river, a ferry boat was securely locked in an ice gorge for a long time, and was helplessly floated up in the flood tide, being in imminent peril of being cut through.

Spain's future policy with regard to Chili and her allies is said to be to carry on the war against them by sending to the Pacific a fleet strong enough to blockade all their ports and starve them into submission. Spain is endeavoring to conclude treaties with the adjacent countries, in which the latter will prevent the transportation through their territories of any article contraband of war intended for Chili or her allies. Chili and Peru have equipped a fleet to operate against Spain, the vessels of which are now reported to be in the neighborhood of Cape Horn.

The Milwaukee News has an elaborate article on the wheat trade of that city, which, it seems, has been considerably larger during the last year than it was in 1865, although the wheat crop of Wisconsin was partially a failure last season. The wheat | back to Radicalism at the sacrifice of personal receipts of Milwaukee for 1866 amounted to 12,644, | honor and self-respect. Mr. Sewaro is lost in 448 bushels, while those of Chicago during the the great political sca-left behind to group same time were but 11,950,001 bushels, a difference in favor of Milwaukee of 713,457 bushels. Milwankee may, therefore, still continue to make her boast that she is the largest primary wheat depot

mia, now inaccessible, is the deepest mine in the angue is the popular idol. What will become world, being 8778 feet below the surface. Its of the country, Ged only knows. depth is only 150 feet less than the height of Mount Vesuvius, and it is eight times greater than the height of the pyramid of Cheops. The bore of

the salt works of Minden, in Prussia, is 2231 feet deep, and 1993 feet below the level of the sea. The mine of Valenciana, in Mexico, is 1686 feet deep, and yet it is 5960 feet above the level of the sea. The Tresavean copper mine, in England, is 2112 feet in depth, and 1700 feet below the sea

"It is noticed that Germans have settled in almost every part of the world. Besides being found in all parts of Europe, and forming a large and valuable portion of the population of every State of the Union, a large German society is flourishing in Hong Kong, in China; and Rio de Janeiro, in Bra-cient resources to ronder effectual aid to such of our brothers as have sought an asylum in Greece. Hence our duty towards our unfortunate compa-triots compels us to implore your assistance and, in Abyssinia have a flourishing colony, which controls the manufacture of cunnowder and is no which your compatriots afforded us in 1821, that trols the manufacture of gunpowder, and is regarded by the king of that country as a valuable of the United States, and that you will hold out a garded by the king of the United States, and that you will hold out a garded to be the united states.

LARGEST CIRCULATION .- The DAILY NEWS publishes the Official List of Letters remaining in the Postoffice at the end of each week, agreeably to the following section of the New Postoffice Law, as the newspaper having the largest circulation in the City of Charleston:

SECTION 5. And be it further enacted, That lists of letters remaining uncalled for in any Postoffice in any city, town or village, where a newspaper shall be printed, shall hereafter be published once only in the newspaper which, being published weekly or oftener, shall have the largest circulation within range of delivery of the said

Ad communications intended for publication in this journal must be addressed to the Edder of the Daily News, No. 18 Hayne-street, Charleston, S. C. Business Communications to Publisher of Daily We cannot undertake to return rejected communica Tions.

Advertisements outside of the city must be accompanie. iiill the eash.

CHARLESTON.

TUESDAY MORNING, JANUARY 22, 1867. THE FREEDMAN ON HIS TRAVELS.

There was no surplus of labor here before the war, nor is there now. Scarcity of provisions and a want of capital have somewhat restricted planting operations in some of the upper and middle Districts of the State, but any temperary surplus of labor from those quarters could readily find empleyment in adjoining Districts, or on the seaboard. The freedmon could thus secure a home and a livelihood, without leaving the country. The most serious step in life a man can take, especially a poor and ignorant man, is to emigrate; to leave his native soil, and cast loose from all his friends and kindred. Even under the most unfavorable conditions, a man has a better prospect of counsel CHRISTINA DE BOURBON has been baptized at Maand assistance from those he knows than from utter strangers. The freedmen know our soil, our climate, our people. Here they were born, enjoyed the fruits of the earth, increased and multiplied, and, until told that they ought to be unhappy, they were wont to take life very easy. Here they have their churches and their schoolhouses, bureau and savings bank, plenty of work, and a fair amount of wages. What more can they

> possibly desire? But they have listened to the voice of the charmer. They have been told that on going to Florida they will each and all become landed proprietors; that the Government will give them each a farm of 80 acres. We do not know whether there is any truth in this or not. But supposing it true, of what advantage will said 80 acres of land be to ninctenths of the negroes who emigrate? They go without money, without utensils of any kind, without a day's provisions, with very inadequate clothing, without a knowledge of the country to which they are going; in fact, they have no fixed destination and no settled plan of operations. The whole sad picture proves that the move is the consequence of outside influence,-they have been "over-persuaded." We have conversed with a number of these emigrants,-some of them negroes we had known for years,-and found, from the lallucinations under which they labored, that they had been tampered with. They expect to live on venison and wild turkey, green turtle and Florida snappar, with oranges, bananas and cocoa-nuts for dessert. Some of our interlocutors were women, delicate of constitution, who had been doing house-

> the community, worthless themselves, and domoralizing the negroes to the manor born; and ere many years the United States troops will hunt through the everglades for outlaw negroes, as they did, for so many years, for the last of the Seminoles: and the future CAMPBELL will sing: "Lo, the poor negro!"

During the progress of the war the influence of the United States Army and Navy was exercised everywhere, to induce the colored people to leave their masters and their homes. The freedmen were congregated in large "villages" and fed from the public crib; and what has been the invariable result? idleness, vice, starvation, sickness and death. But a few weeks since we read the most heart-rending appeals for succor, in the Washington papers, in behalf of the unfortunate freedmen huddled together at Arlington. We thought that the Government had experimented capugh in freedmen's colonies to be satisfied that this was not the road to an-amelioration of either the moral or material condition of the race. As we said before, we know nothing definite of the present colonization scheme. We knew not whether it has been inaugurated by interested parties for purposes of gain, or whether it is a blind inconsiderate philanthropy that is thus drawing hundreds to inevitable destruction. But whatever the motive, the result will be the same. We know there are many who differ with us on this subject, and say "Let them go; we are better without them." This is not our opinion. True. we cannot hinder their going; but we can at least tell them what we think about the matter. Some say, there have always been too many negroes here, and a little thinning out will be serviceable. We do not think there ever were too many here; and even by Gen. Howard's showing, there are now some 30,000 less than there were five years ago; and as to the thinning out, we always lose by such operation, as in most instances the best go, and the most worthless remain.

Let planters and farmers exert themselves, and set the subject properly before the negroes; reason with them, and offer them fair terms for the ensuing year, and we have no doubt that in many cases it will have a salutary effect.

The New York Nation, a Radical weekly journal published in New York, in an article on the proposed impeachment of the President,

Whether the impeachment will really be carried through the House and brought before the Senate, it is still difficult to say. Public opinion, in every it is still difficult to say. Public opinion, in every way in which it has as yet been tested, scems, as we have always anticipated it would be, decidedly against it. But a long article in the New York Times, and which is evidently from Mr. Raymond's hand, predicts very confidently that the trial will come off, inasmuch as the Radical leaders will press it, and the more moderate men, who in their hearts disapprove of it, will be driven into support-ing it, as they have so many other things, by an unsparing application of the party whip. For our own part, we are still satisfied that unless there is in somebody's possession cvidence of worse offences than Mr. Johnson is now known to have committed, his impeachment, whether it succeed or fail, will prove a great and lasting calamity. It

will convulse the country at present, and introduce a new element of disorder in our politics in the

The idea expressed, as originating with Mr. RAYMOND, that the moderate men in Congress will be forced into supporting the Radical measures, because they cannot withstand the party whip, is not new to us. Quite a year ago we expressed the same opinion, and since then have continued to do so in various shapes. We do not think that any politiciau in the North, who desires political power, can take a moderate course. Mr. RAYMOND had to crawl along as best he can, because he did not suil with the wind. So is GREELEY. So, indeed, are all those who have attempted to run against the raging current of Radicalism. The man The Esclehacht Mine at Kuttenburg, in Bohe- in the North that makes the most furious har-

> AN APPEAL OF GREEK WOMEN TO THE WOMEN OF AMERICA.—An appeal, signed by the women of the Greek Island of Syra, to the ladies of this country, has been received asking help for the refugees

from Crete. The appeal closes thus: In the island of Syra, inhabited by the victims that escaped the disasters of our holy struggle in 1821, as well as in other parts of Greece, thou-sauds of the Cretan families have taken refuge begging for food and clothes and an asylum. We have opened our houses to them and our arms, and addition to his people. Industrious and energetic wherever they go, the Germans, in all parts of the world, are held up as examples of thrift and prosperity.

of the United States, and that you will hold out a succoring hand to our brothers, exiled from their country and the prey of unmerited misfortunes. The Greeks of both sexes will all be eternally grateful to you, the descendants of Washington and Franklin—the founders of your Republic.

with all necessary appurtonances, at No. 54 Beaufai street. Inquire at No. 275 King street. DARE CHANCE FOR GARDENERS AND for dessert. Some of our interlocutors were women, delicate of constitution, who had been doing housework all their lives. We asked them how they expected to get along in Florida; "Oh, we shall stop in some of the villages."

Now what will be the inevitable consequence of such a reckless, unwise system of colonization? We have seen it hinted that large numbers would be kidnapped and deported to Cuba; but we do not entertain such suspicion. A large number of these poor, ignorant, deluded creatures must inevitably perish, and the remainder become rovers and vagrants through the peninsula, a pest to the community, worthless themselves, and dobringing skill and capital. There is a Gr bringing sain and capital. Inter is a chaptry, ownering 30 vines, of foreign varieties, under glass, in full bearing, until the last year, when it was neglected. There is a Propagating House and Nursery Beds for fruit and ornamental trees, and about 150 acres of good land for the cultivation of corn and cotton, belonging to the tract, which can be obtained. The Crehard and accessions with the cultivation of corn and cotton, belonging to the tract, which can be obtained. sories will be rented or worked upon shares. Apply to Factor and Commission Merchant, Adger's North Wharf, Charleston, S. C.

NOTTON AND CORN PLANTATION TO RENT, in Sumter District, 8 miles west of Sumter illage. The Wilmington and Manchester Railroad runs village. The Wilmington and Manchester Railroad runs through the tract, and a station on the tract, and within 2 miles of the settlement. Location perfectly healthy. Water perfectly pure and sweet. Good accommodations for 150 to 200 negroes. About 1000 to 1200 acres of arable land, cleared and under tence—fonces in tolerably fair condition. Good dwelling house, containing 6 rooms, and all necessary outbuildings, as stables, barns, kitchen, storerooms, &c. There are some laborers now on the place who might be induced to remain, as they are attached to the place. Will be sold, if desired, or rented for a term of years. Parties can examine the place by applying to JOHN B. MOORE, at Stateburgh, S. C. Tract contains 3300 acres. Sixty hands have been successfully worked on the place. Good cotton and corn land for the middle country. The proprietor of this place invites propositions from parties desiring to invest in cotton planting as to cultivating this plantation on shares.
